REFORMING THE POLICE EDUCATION SYSTEM

Having chosen the European vector of development, Ukraine puts on the first plan of ensuring the rights and freedoms of citizens. Therefore, the next step of the reforms was the reform of law enforcement system of Ukraine and introduction in principle new system of police personnel training taking into account foreign experience.

In connection with this next step reforms after the adoption of the Law of Ukraine "About National Police", was the adoption of the concept of reform of education in the system of the Ministry of Internal Affairs of Ukraine. This concept envisages the improvement of the system education management, organizational staff optimization construction, legal, personnel and other support educational process in the Ministry of Internal Affairs.

Content of this concept prepared on the basis of domestic and foreign practice, modern scientific research taking into account the experience of the EU. This concept envisages creation in principle new model of personnel training for the police taking into account experience of

European countries. Namely, the creation of a three-level personnel training system in the national system police of Ukraine.

The first level of training consists of educational and training courses centers where the primary will be carried out professional training, training of specialists with assignment qualifications. The term of such training should be 10 months, of which 7 months are theoretical training, and 3 months practical. Specialist training is planned for the second level of training educational level "bachelor", "master" with business trip according to the results of state certification, to components bodies.

That is, at the second level should be carried out, the so-called training and retraining or professional development. Preparation on this levels are planned to be held in police academies at universities system of the Ministry of Internal Affairs of Ukraine.

The third level of training, or it is also called level training and advanced training are planned for "management". of management at the National Police Academy, respectively to the requirements of educational programs of managerial content. According to the reform plan, the system of educational institutions system of the Ministry of Internal Affairs of Ukraine for the training of national personnel the police will consist of: On the first level - educational and training centers; At the second level - 6 police academies created under Higher education institutions of the Ministry of Internal Affairs of Ukraine; The third level is the creation of the National Academy of Internal Affairs [1].
